

Winship at Midtown Fast Facts

- The name of the new facility is Winship at Midtown
- 17-story tower dedicated to cancer care aligned with cutting edge research
- 455,000 square feet occupying more than 3 acres
- Facility will include inpatient beds, outpatient clinics, surgical and procedure suites, diagnostic imaging, treatment suites, and research space.
- Located on Linden Avenue and Peachtree Street next to the Bank of America Plaza
- Connected to Emory University Hospital Midtown (EUHM) by a pedestrian bridge
- Facility will include a multi-story parking deck
- Construction expected to complete in late 2022, patient care expected to begin in spring 2023.
- Certificate of Need issued Oct. 11, 2019 by the GA Dept. of Community Health
- Project started with a \$200 million grant from the Robert W. Woodruff Foundation
- Estimated cost approximately \$469 million
- Unique facility design will keep the patient in a centralized location and bring health care providers, services and research opportunities to them.
- Support services will include dining options, retail pharmacy, survivorship center, and other amenities especially for cancer patients and their caregivers.
- The building will expand patient access to Winship as the state's only National Cancer Institute (NCI)-designated comprehensive cancer center.
