Saturday, December 3, 2016

11:15 AM-12:15 PM Career Development Session
Location: Hilton San Diego Bayfront, Sapphire Ballroom AB
Clinical Malignant Hematology/BMT Careers
Presenter: H. Jean Khoury, MD

5:30 PM-7:30 PM Abstracts
Location: San Diego Convention Center, Hall GH
An Evaluation of the Role of Surveillance Imaging in Mantle Cell Lymphoma in First Remission
Abstract 1799 | Presenter: Daniel Guidot, MPH

B-Cell Markers Predict Response to Venetoclax in Multiple Myeloma
Abstract 2108 | Presenter Vikas Gupta, MD, PhD

A Prospective Multi-Center Trial Shows Reduction of Early Deaths (ED) and Improved Survival in Elderly Acute Promyelocytic Leukemia (APL) Patients (>60 years). Results of Using a Simplified Treatment Algorithm and Expert Support in Georgia, South Carolina and Neighboring States
Abstract 1622 | Presenter: Vamsi Kota, MD

Efficacy and Safety Following Bosutinib Dose Reduction in Patients with Philadelphia Chromosome–Positive Chronic Myeloid Leukemia
Abstract 1921 | Presenter: Vamsi Kota, MD

Presence of Vasoactive Intestinal Polypeptide Signaling in Plasmacytoid Dendritic Cells Improves Survival in a Murine Allo-BMT Model
Abstract 2154 | Presenter: Jing-Xia Li

Final Results of a Phase 1/2a, Dose Escalation Study of Pvx-410 Multi-Peptide Cancer Vaccine in Patients with Smoldering Multiple Myeloma (SMM)
Abstract 2124 | Presenter: Ajay Nooka, MD, MPH

Influence of Age on Risk for Acute and Chronic Graft Versus Host Disease in Children Receiving HLA Identical Sibling Bone Marrow Transplantation
Abstract 2228 | Muna Qayed, MD, MSc

Sunday, December 4, 2016

11:15 AM-12:30 PM Special-Interest Session
Location: Marriott Marquis San Diego Marina, Marina Ballroom G
Best Practices for Incorporation of Nurse Practitioners, Physician Assistants, and Clinical Nurse Specialists into Hematology Care
Co-presenter: H. Jean Khoury, MD
Clinical Efficacy of Daratumumab, Pomalidomide and Dexamethasone in Relapsed, Refractory Myeloma Patients: Utility of Retreatment with Daratumumab Among Refractory Patients
Abstract 492 | Presenter: Ajay Nooka, MD, MPH

A Multi-Center Prospective Study Utilizing a Simplified Treatment Algorithm Complemented By Expert Support Decreases Induction Mortality and Improves Survival in Acute Promyelocytic Leukemia (APL). Results of the APL Trial in Georgia, South Carolina and Neighboring States
Abstract 2793 | Presenter: Anand Jillella, MD

Outcomes of Chronic Phase Chronic Myeloid Leukemia Patients Following Tyrosine Kinase Inhibitors Dose-Reductions
Abstract 3093 | Presenter: Vamsi Kota, MD

Outcomes for Elderly Patients (pts) with Follicular Lymphoma (FL) Using Individual Patient Data (IPD) from 5922 Pts in 18 Randomized Controlled Trials (RCTs): a Follicular Lymphoma Analysis of Surrogate Hypothesis (FLASH) Group Study
Abstract 1102 | Presenter: Christopher Flowers, MD, MS

CD30 Expression Is Not Acquired at Time of Relapse in Diffuse Large B-Cell Lymphoma
Abstract 4225 | Presenter: Oscar Calzada, BS

Characterizing Autoimmune Disease-Associated Diffuse Large B Cell Lymphoma in a SEER-Medicare Cohort
Abstract 4214 | Jean Koff, MD

Patterns of Relapse Among Myeloma Patients Post-Autologous Stem Cell Transplant
Abstract 4524 | Presenter: Prashanth Kumar
