

## Annual Mammogram Screening

What is a mammogram?

A mammogram is a safe, low-dose x-ray of the breast. A high-quality mammogram is the most effective tool for detecting breast cancer early. Early detection of breast cancer may allow more treatment options. It could even mean saving your breast or your life.

To schedule your annual mammogram screening:

1. Call Emory's Breast Imaging Center at **(404) 778-7465 (PINK)**
2. Press 1 when asked if you are a patient.
3. Press 1 for appointments

Please note:

- Patients 40 year of age and older **do not** need an order from their provider to schedule a mammogram screening.
- Remember to wear a two piece outfit and no oils, lotions, deodorant, or powder on your upper torso
- If you have had a previous mammogram at another facility, please request your images and reports and bring them to your appointment.
- Emory Mammograms are offered at the following locations:
